## INTROTEK INTERNATIONAL CELEBRATES 25 YEARS OF ULTRASONIC EXCELLENCE

**Edgewood, New York** – At its Edgewood, New York facility today, Introtek International has announced their 25th anniversary of delivering the highest standards of ultrasonic excellence.

Established in 1982, Introtek International was formed with the primary goal of exceeding the expectations of their customer base. This was achieved year after year by providing superior quality, premier customer service, and major breakthroughs with design innovations

Introtek headquarters and product development center is based in Edgewood, New York in the heart of Long Island. The sensors designed and manufactured by the highly experienced Engineering Department have been utilized by major medical device manufacturers around the globe. In recent years, Introtek sensors have transcended into other markets that include pharmaceutical and clinical research, industrial fabrication, and food processing.

"After 25 years, Introtek continues to be the quality leader in the ultrasonic sensor industry because that is the commitment our entire company has made to our customers." said

Deb Corwin, General Manager of Introtek and employee of over 20 years. "Our entire organization stands behind our Company Quality Policy".

"From an engineering viewpoint, Introtek continues to look ahead at the next exciting customer application." stated Joe Mariano, Engineering Manager of Introtek.

Introtek International has been custom-designing and manufacturing non-invasive ultrasonic sensors since 1982, and has been a wholly owned subsidiary of Magnetrol since 1986. The sensors have been utilized for applications that have included the detection of air bubbles in tubing, and continuous liquid levels in containers and tanks. Introtek also offers sensors for drip chamber applications and fluidic cassettes as well as optical sensors for blood leak detection.
